OPERATIONS

Changes and advancements continued through 1961 and 1962. During this period the Air Base facilities added approximately \$500,000 worth of additions. This included a new engine shop, alert hanger, supply and equipment shed, weapons calibrator shelter, ammunition maintenance shop and electrical distribution system. Also, during this period the 125th Material Squadron (Air Defense) was organized and assigned to the 125th Fighter Group.

In Jul 1964 the Florida air National Guard was reorganized under the double duty concept of operation. This gave the group commander two deputy commanders who were directly

responsible to him. The new posts included deputy commander for operations and deputy commander for material. At the same time the 125th Supply Squadron was activated to replace the inactivated 125th Material Squadron.

Air Force Order of Battle
