OPERATIONS

The 148th Civil Engineer Squadron provides and operates facilities to support the flying operations of the 148th Flying Wing. Major activities consist of design, construction, operation, maintenance, and repair of all physical plant facilities and real estate, including utilities, roads, airfield pavements, buildings, etc. Other areas this squadron specializes in are electrical, engineering, explosive ordinance disposal, fire fighting, heating, ventilation and air conditioning, liquid fuels, material control, pest control, production control, roads and grounds, structural elements and utilities. In addition to providing fire fighting support to the 148th Fighter Wing, the Fire Fighting Section is also responsible for the Duluth International Airport.

Air Force Order of Battle
