OPERATIONS

AFCCO

Colocated with the National Security Agency at Fort Meade, the Air Force Center for Cryptologic Operations is also called the Air Force Cryptologic Office at Fort Meade. AFCCO is the Air Intelligence Agency arm of the four armed services that compose the NS A/Central Security Service—AIA's primary office interfacing with NSA/CSS on all cryptologic mission areas. The Director, AFCCO, works closely with the 67th Intelligence Wing and supports efforts to develop cryptologic plans and programs for future training, technologies and requirements.
