

SATELLITE CONTROL AND NETWORK CONTROL SYSTEMS GROUP

Satellite Control and Network Control Systems Group:

The Satellite Control and Network

Control Systems Group modernizes and sustains the \$8.2 billion Air Force Satellite Control Network, including two control nodes and nine worldwide remote tracking stations, to assure responsive, effective satellite support to warfighting forces. The SCNCSG provides highly reliable command and control, communications, telemetry and tracking for more than 170 Department of Defense, civil, Allied, NATO, and National Reconnaissance Office satellites to support launch, surveillance, navigation, communication and weather satellites.
