

39 ELECTRONIC WARFARE SQUADRON

MISSION

The mission of the 39 Electronic Warfare Squadron is to deliver cutting-edge EMS capabilities to the warfighter. It provides electronic warfare reprogramming support, target analysis of intelligence mission data, software/capability development, and modeling/simulation in support of over 70 electronic warfare systems. The 39 Electronic Warfare Squadron is a diverse 82-member team composed of six flights filling 12 Air Force specialty codes ranging from intelligence to software development and engineering. This diverse team of active duty, government civilians, and contractors ensure that combat platforms can detect, locate, and defeat adversary threats in order to meet Combatant Command objectives.
